CONTAINERS

www.rcontainer.eu

Our company **RYTERNA** established in 1993 with it's 17+ years experience, two factories and 320+ employees is one of the leading garage doors manufacturer in Europe. Some years later according market demand we started with production of accommodation, office, sanitary, commercial purpose containers and mobile houses.

Today we export 30.000 garage doors and 600 containers a year to Sweden, Norway, Finland, Denmark, Netherlands, Germany, United Kingdom, Belgium, Poland, Italy, Ukraine, Russia, Bulgaria, Belarus, Azerbaijan, Kazakhstan, Latvia, Estonia, etc.

UAB "Ryterna" RHOUSE department specializes in manufacturing container modules. The Company supplies container modules for construction site, sanitary and office cabins. The container modules can be fitted up as many offices or shops.

Our advantages:

- High manufacturing capacity;
- 10 years experience of cooperation with foreign partners;
- Our products comply with European standards;
- Due to reinforced welded frame our containers are solid and durable;
- Solid frame manufactured from 4 mm bended steel;
- You can choose welded or assembled container frame;
- Wide choise of interior equipment (partition walls, doors, windows, insulation materials, sanitary equipments) at customer request;
- Door to door delivery in Europe;
- Response to customer inquiries within 24 hours;
- Reliable sub-suppliers within certificated products;
- Assembly and disassembly services.

Customized solutions

Modular containers allow time, space and cost savings as they needed simpler foundations and are easy to tranport. Yet customers seek comfort and customized solutions. Therefore we have customized standard solutions, while it is up to the customer to choose individual interior layout and finish according to their needs.

RHOUSE containers match ISO 668 standard dimensions for shipping containers. Containers are insulated and equipped with electric wiring and fixtures. Container modules may be stacked on top of each other forming multi-storey buildings or linked side by side into complex.

Type	Width External (internal)	Length External (internal)	Height External (internal)	High-cubes External (internal)
5'	2438 (2218)	1390 (1230)	2591 (2323)	2800 (2532)
8'	2438 (2218)	2560 (2340)	2591 (2323)	2800 (2532)
10'	2438 (2218)	2989 (2769)	2591 (2323)	2800 (2532)
16'	2438 (2218)	4876 (4656)	2591 (2323)	2800 (2532)
20'	2438 (2218)	6058 (5838)	2591 (2323)	2800 (2532)
20'w	3028 (2808)	6058 (5838)	2591 (2323)	2800 (2532)
24'	2438 (2218)	7314 (7094)	2591 (2323)	2800 (2532)

Container walls are made of 80-100 mm sandwich panels. Customers may choose between three types of walls filling that differ in energy efficiency qualities and price: polystyrene (EPS), polyurethane, mineral wool.

Standard walls colour is silver(RAL 9006), white (RAL 9002), blue (RAL 5010) Other colors available upon request.

Container roof is covered with 0,5mm zinc –coated plate, insulation filling 100mm mineral wool. The ceiling is covered with PVC panel or laminated chip bord (MDF).

Container bottom is insulated with 100 mm mineral wool (U-value = 0,37 W/m^{2}K). The floor is made of 22 mm OSB plate with PVC linoleum floring. Standard floring color is grey, yet other colors are avialable upon request. Container bottom is sealed with profiled 0,5 mm zinc – coated plate.

WOOD CONTAINER
